It is with a degree of pride that we call the attention of the public to our steady growth of deposits during the four years we have been in business in this community. The increase of our deposits indicates that we have steadily advanced in the favorable estimation of those who have had dealings with us and with whom we have come in contact.

We call special attention to the bottom of this pyramid which shows in the last twenty days of troublesome times our depositors have not materially decreased. We select the 28th day of October because it was on that day that trouble began to brew this year. We feel that we are to be congratulated upon having sustained practically no loss of patronage during this period of financial disturbance.

We promise to take good care of the customers we now have and all the new ones who select us as their depository.
